- [Verisign Delegation for Certificate Creation](#)
- [How to customize application images](#)

Introduction

This page is broken down into 4 main chapters

- A chapter to define the different concepts and concept of white label.
- A chapter showing how to simply configure some white-label elements online.
- A chapter describing the creation of custom stylesheets and their applications to Payline interfaces
- A chapter describing the procedure for setting up a personalized image

This page supplements the Payline Administration Center User Manual, the Advanced Personalization Guide for Payment Web Pages, and the TPEV Customization Guide.

The white label, notions

Payline offers its distributors to white label the various interfaces for end users (merchants or buyers). These interfaces are:

- The administration center
- Payment web pages
- The virtual payment terminal

The customization in white label allows to give the applications a proper identity. This customization can be done by 3 means:

- Creating specific URLs for accessing applications (see Creating specific URLs).
- Changing logos (see section Customizing applications by the Administration Center)
- Implementation of personalized style sheets (CSS) (see Customization of the CSS of the administration center and Personalization of the CSS of the payment web pages and Personalization of the CSS of the TPEV)
- Custom Image Usage (see How to Customize Application Images)
- Configuring sent emails (see Customizing the Administration Center and Customizing Payment Web Pages)

Creating specific URLs

URLs to access services

White labeling Payline applications requires the creation of custom URLs. These URLs are 3 * 2 (3 for production and 3 for registration) to access the following sites:

- Payline Administration Center
- Payment web pages
- TPEV

Payline web services not being visible to end users, is not customizable.

Environment	Application name	Address IP you service	Exemple d'URLS
Production	Administration Center	194.5.120.176	admin.payline.com
	Payment web pages	194.5.120.178	webpayment.payline.com
	TPEV	194.5.120.203	tpv.payline.com
Homologation	Administration Center	194.5.120.177	homologation-admin.payline.com

	Payment web pages	194.5.120.179	homologation-webpayment.payline.com
	TPEV	194.5.120.204	homologation-tpv.payline.com

Certificat SSL

Payline provides secure communication between its customers (merchants or buyers) and servers. This is achieved by strong encryption of SSL V3 data exchange.

This encryption is provided by SSL certificates installed on Payline servers.

The generation of these certificates is provided by Monext. The data needed to create the certificates are:

- Certificate Creation Delegation (Appendix 1)
- URLs of each application

The delegation of certificates creation is provided in Appendix 1 and must be returned by fax to 04 42 25 14 12 or scanned and sent signed by email to assistance@payline.com.

The cost of setting up the certificates is available on request from the sales department.

Customization of the graphic charts

All chart changes are relative to the URLs provided to access the services. These URLs are therefore mandatory and must be defined first.

The DNS resolution of the URLs must be set up by the Payline solution's distributor.

Customization of applications by the Administration Center

Payline offers customizations of different applications in a very simple and dynamic way on the screens of the administration center. The customization is available from the menu "Configuration My Account"

Distributor Account Management Screen

This screen is used to view the interface and options available for the distributor account. These options may be offered through commercial offers to merchants (see Business Offer Management). It also allows you to configure simple items in your distributor account.

A first grouping of fields makes it possible to inform the general information of the distributor.

Distributor ID

This field is generated automatically by Payline. It is the unique identifier of the distributor.

It is used to communicate with the customer management as well as to reconcile the merchants attached to this distributor.

Distributor Name

This is the distributor's business name.

This name only has an informative role and is not displayed in the screens.

Payment Solution Name

This is the business name of the payment solution.

This name only has an informative role and is not displayed in the screens.

Solution Marketing Logo

This is the commercial logo of the payment solution.

This logo has only an informative role and is not displayed in the screens.

A second grouping of fields makes it possible to visualize the available interfaces as well as to configure (if necessary) the different elements of white mark of each interface.

The activation of the interfaces is possible via the commercial contact.

Administration Center

This check box shows whether or not the distributor can offer this interface to its merchants.

If the box is checked (the administration center is available) then a [configure](#) link is used to set the white-label elements of the administration center (see section Customizing the Administration Center for the details of this configuration).

Payment web pages

This check box shows whether or not the retailer can offer this interface to its merchants.

If the box is checked (the payment web pages are available) then a [configure](#) link is used to set the white label elements of the payment web pages (see section Customizing payment web pages for the details of this configuration).

Virtual payment terminal

This check box shows whether or not the retailer can offer this interface to its merchants.

If the box is checked (the virtual payment payment terminal is available) then a [configure](#) link is used to [set](#) the white-label elements of the payment virtual payment terminal (see section [Customizing the TPEV](#) for the details of this configuration).

Direct interface

This check box shows whether or not the retailer can offer this interface to its merchants.

This interface does not require a white label configuration.

A third grouping of fields makes it possible to visualize the available options.

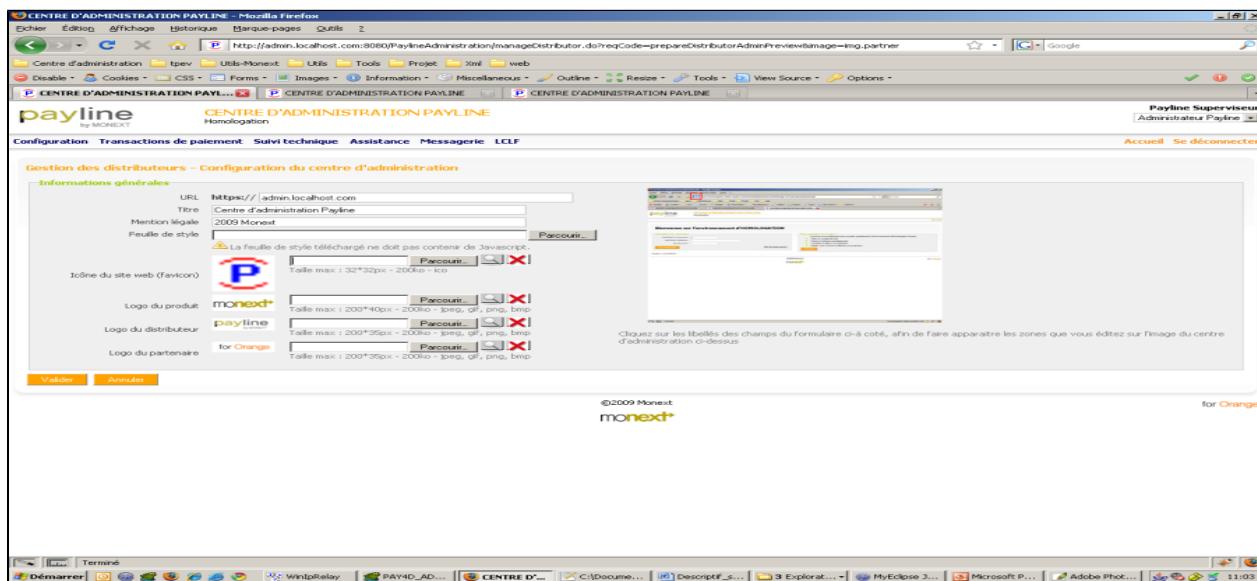

Activation of the options is possible via the sales contact.

The options are grouped by types and interfaces. The complete list of options and their description is available from the sales department.

Customizing the Administration Center

This page allows the customization of the administration center.

An image of the Administration Center is on the right side of the screen and shows where the area is currently being modified.

URL

This field is used to define the URL that will be used to access the Payline site. This URL must be secure.

Title

This is the title of the application. This title appears in the browser window.

Legal

notice This zone allows you to enter a legal notice that appears at the bottom of the site.

Style Sheet

This area allows you to download a custom style sheet. The Customizing CSS section of the Administration Center describes how to create these style sheets.

Website Icon

This is the icon that appears in the title or address bar of the browser. Its size is 32 * 32 pixels and its format must be .ico

Product Logo

This is the product logo displayed on the top left of the site. Its size is 200 * 40 pixels and its format must be jpeg, png or bmp.

Distributor Logo

This is the product logo displayed at the bottom center of the site. Its size is 200 * 35 pixels and its format must be jpeg, png or bmp.

Partner Logo

This is the product logo displayed at the bottom right of the site. Its size is 200 * 35 pixels and its format must be jpeg, png or bmp.

Validate

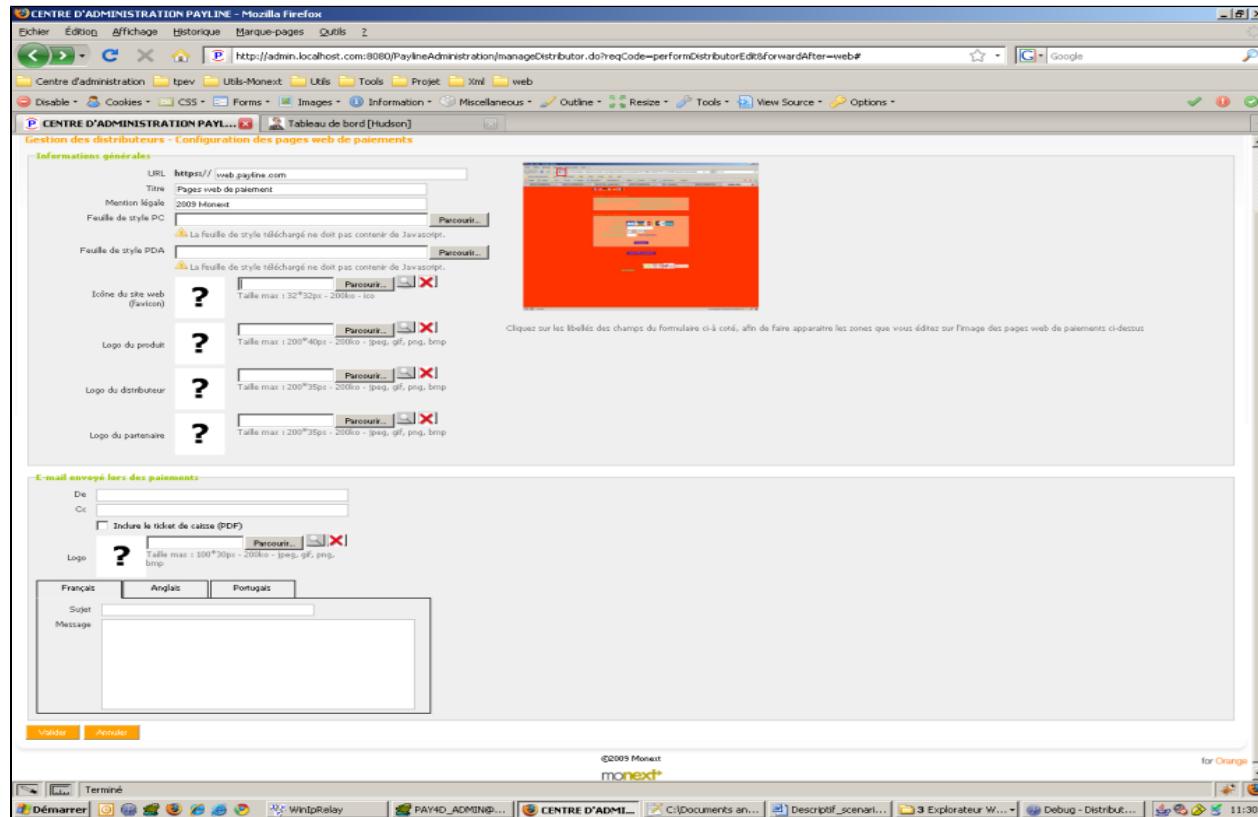

This button is used to save the changes and return to the distributor's management page.

Cancel

This button cancels the changes and returns to the distributor's management page.

Customization of payment web pages

This screen allows you to customize payment web pages as well as create email templates sent during payments.

A first block allows the entry of personalization data on payment web pages:

URL

This field is used to define the URL that will be used to access the Payline site. This URL must be secure.

Title

This is the title of the application. This title appears in the browser window.

Legal

notice This zone allows you to enter a legal notice that appears at the bottom of the site.

PC Style Sheet

This area allows you to download a custom style sheet that will be used on a PC. The Customizing CSS section of the payment web pages describes the creation of these style sheets.

PDA style sheet

This area allows you to download a custom style sheet that will be used on mobile equipment. The Customizing CSS section of the payment web pages describes the creation of these style sheets.

Website Icon

This is the icon that appears in the title or address bar of the browser. Its size is 32 * 32 pixels and its format must be .ico

Product Logo

This is the product logo displayed on the top left of the site. Its size is 200 * 40 pixels and its format must be jpeg, png or bmp.

Distributor Logo

This is the product logo displayed at the bottom center of the site. Its size is 200 * 35 pixels and its format must be jpeg, png or bmp.

Partner Logo

This is the product logo displayed at the bottom right of the site. Its size is 200 * 35 pixels and its format must be jpeg, png or bmp.

A second block allows the customization of emails:

Language	This drop-down list allows you to choose a language for sending emails. The language that appears with a star is the default language (if the language of the buyer does not exist on Payline, then he will receive an email in this language). Languages that appear in red are languages that have not yet been customized. A change of choice in this list causes an update of the values entered as well as reloading of the page with the values for the selected language.
Default language	This checkbox allows you to choose the default language.
Of	This is the email address that sent the email. The format of this field is of the following form: name@domain.com or to put an alias "Payment Payline < name@domain.com >"
Cc	This zone allows the sending in hidden copy of the emails to one (or more) address data. The format of this field is in the following form: name@domain.com or to put an alias "Payment Payline < name@domain.com >". If the zone contains multiple addresses they must be separated by a semicolon
Include cash receipt	This checkbox is defined if the receipt in PDF format is to be included as an attachment of the mail sent to the buyer
Website icon	This is the icon that appears in the title or address bar of the browser. Its size is 32 * 32 pixels and its format must be .ico
Logo	This is the logo of the inserted in the attachment in PDF as well as in the mail. Its size is 100 * 30 pixels and its format must be jpeg, gif, png or bmp.
Topic	This is the subject of email. It can be set in the same way as the message content
Message	This is the body of the message. It is possible to put html text and insert values in dynamic ways. The available variables are shown in the table on the right and must be inserted between "#" in the text
Variable	Description
#buyer.firstname#	Customer's first name
#buyer.lastname#	The customer's name
#logolImage#	The logo of your company rendered in an image tag
#order.reference#	The reference of the order
#ticket.formattedAmount#	The paid amount formatted with the chosen currency
#pos.label#	Point of sale label
Validate	This button saves the changes and returns to the distributor's management page
Cancel	This button cancels the changes and returns to the distributor's management page

Customization of the TPEV

Like the Administration Center, this page allows the customization of the TPEV.

A screenshot of the TPEV is present on the right side of the screen and shows where the area is currently being modified.

This button cancels the changes and returns to the distributor's management page.

Management of commercial offers

This section shows how to create commercial offers for merchants. These offers are configurable and can be offered for a defined duration to merchants.

The commercial offers management screens are accessible via the menu "Configuration Management of commercial offers"

Options and accessible interfaces

The payment solution offers 4 payment interfaces and a large number of options. Access to these interfaces and options is defined by Payline support based on the contract signed with Monext.

Interfaces
Administration Center
Payment web pages
Virtual payment terminal
WebService

The complete list of options and their description is available from the sales department.

Business offers research

This screen allows the search for commercial offers according to certain criteria, it also allows to create a new offer (see **Error! Source of the return not found.**).

Offer name

This field is used to search for an offer by name. Only part of the name can be entered.

Offer in the course of sale

This box makes it possible to limit the search to the offers currently sold

Offer name sold now

This box allows you to search for offers that are no longer sold

Find a merchant's offer

This field is used to search for the offer taken out by a merchant. You must enter here the merchant ID.

Search

This button is used to start the search. See Table of commercial offers

Create a new offer

This button is used to create a new offer. See Creating or Changing Business Offers for Merchants

Table of commercial offers

This screen makes it possible to visualize the offers proposed to the traders, to go on their detail or to make a new copy.

This screen is split into two parts, one for entering information about the offer:

Offer Business Name This field is used to enter the business name of the offer. This name will be displayed to traders.
Billing Currency This drop-down list allows you to enter the billing currency
Cost of activation of the offer Cost in currency of activation of the offer.
Monthly cost of the offer Cost in the monthly currency of the offer
Minimum duration of commitment Minimum duration during which the merchant will not be able to break his subscription
Fixed cost per transaction Fixed cost in currency for each transaction.
Percentage per transaction Percentage taken for each transaction.
Number of transactions included in the offer Number of free transactions included in the offer
Propose the offer from ... until ... Start and end date of sale of the offer
No longer sell this offer Case check that no longer offers this offer for sale.

The second for entering options to include in the offer.

Option Name The name of the option.
Included in the offer This list allows you to choose whether to include, not to include or to make optional an option for this offer. An offer not included will not be shown to merchants upon registration. An included offer will be shown as free and included in their offer. An optional offer can be chosen by a trader according to his needs
Monthly supplement Monthly surcharge in currency for this option.

Fixed additional cost per transaction
Fixed currency supplement for all transactions made using this option.
Additional Percentage Per Transaction The
additional percentage for each transaction using this option.
Save
Save Changes / Create Offer
Cancel
Cancel and return to the offer search screen

Online registration of traders

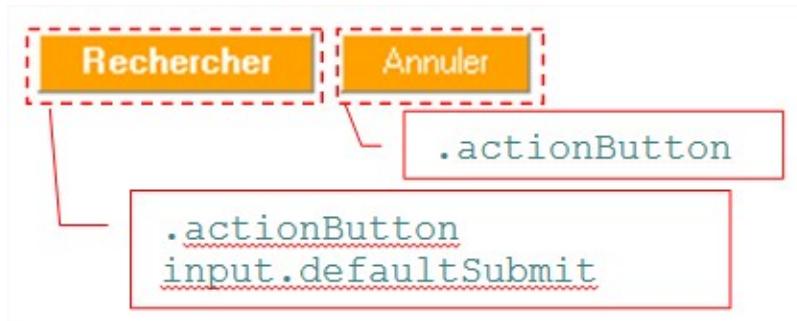

When registering online, traders are offered offers that were created in the previous step.

Customizing the CSS of the Administration Center

This paragraph shows how to expertly customize CSS by the admin center.
The full CSS of the Administration Center is available at the following address:
<https://homologation-admin.payline.com/PaylineAdministration/skins/default/all.css>

General Styles

The general styles of the Payline app are explained in this section

CSS example admin center

```

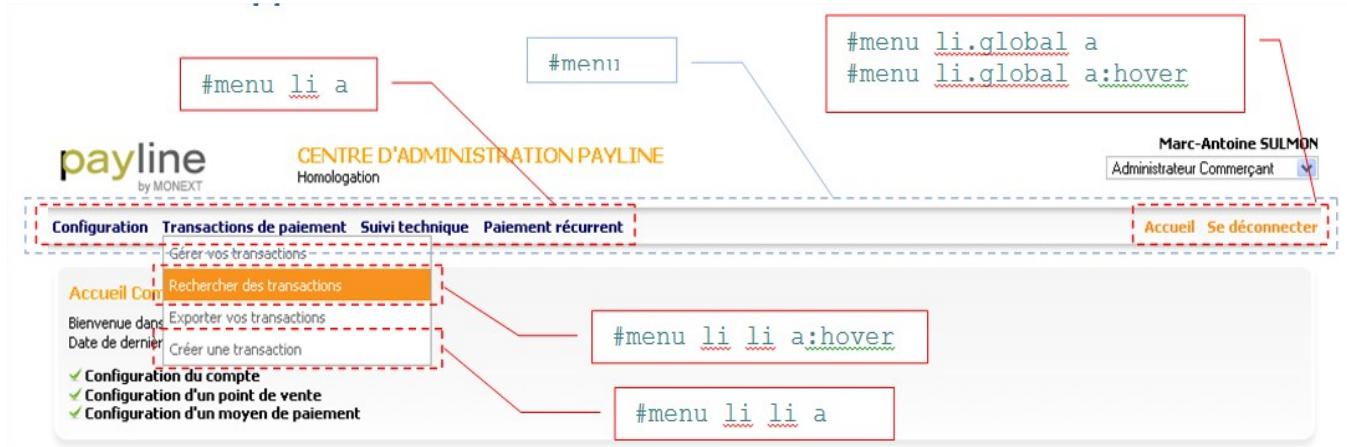

/** Default button style */
input.defaultSubmit {
font-weight : bold ;
}

/** Style button */
.actionButton {
background-color : # FFA200 ;
border-width : 1px ;
color : #FFFFFF ;
padding : 0.15em 1em 0.2em ;
}

/** Global settings (font, background color) */
body {
font-family : Tahoma, sans-serif ;
font-size : 70% ;
margin: 0;
padding: 0;
}

```

Application menu

CSS example admin center

```

/** Style des menus ***/
#menu li a {
color: #000066;
font-weight: bold;
line-height: 1.2em;
padding: 5px 0;
text-decoration: none;
}

/** Style des sous menus ***/
#menu li li a {
background: #FFFFFF none repeat scroll 0 0;
color: #666666;
display: block;
font-weight: normal;
line-height : normal ;
padding : 5px ;
text-decoration : none ;
width : 18em ;
}

/* *** Sub-menu style on a rollover by the mouse *** /

Customization of the CSS of the payment web pages

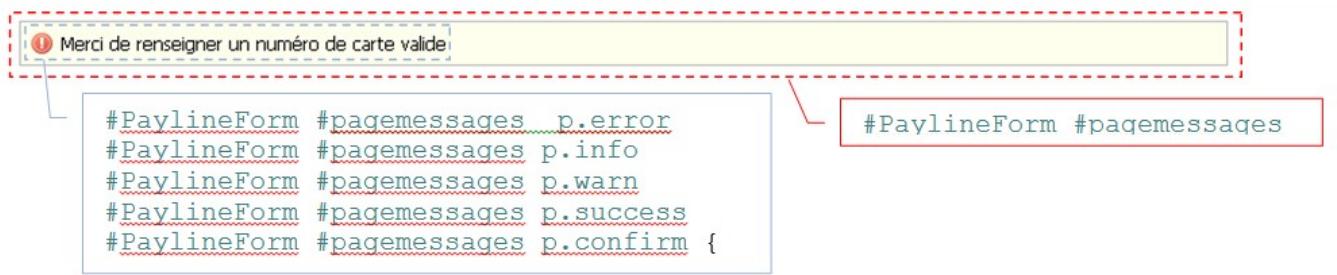

This section shows the main CSS tags used to customize payment web pages.

These settings are the default visual for merchants. Merchants can also customize web pages via simple customization (see the Administration Center user manual) or via dynamic web page templates (see the advanced configuration guide for payment web pages).

The CSS complete web payment pages is available at:

<https://homologation-webpayment.payline.com/webpayment/skin/default/all.css>

Error and confirmation messages

CSS example of the payment web pages

```
/* *** Message block *** /  
#PaylineForm #agemessages {  
}  
  
/* *** Pictogram and wording of the error (eg: "Please  
enter a valid card number") *** / #PaylineForm #pagemessages p.error {  
}  
  
#PaylineForm #pagemessages p.info {  
}  
  
#PaylineForm #pagemessages p.warn {  
}  
  
#PaylineForm #pagemessages p.success {  
}  
  
#PaylineForm #pagemessages p.confirm {  
}
```

Payment Data Entry Page

The diagram illustrates the structure of a payment data entry page with corresponding CSS selectors. Key elements include:

- Merci de renseigner un numéro de carte valide** (Text at the top)
- DONNEES DE PAIEMENT** (Section title)
- Veuillez renseigner vos données de paiement** (Text inside the form area)
- Type de carte**: CB, VISA, MasterCard, e-CARTE BLEUE
- Numéro de carte**: Input field
- Date de fin de validité**: Two dropdown menus (month and year)
- Cryptogramme Visuel**: Input field with a "Plus d'informations" link
- Valider** and **Retour** buttons
- #PaylineForm #cancelButton** (Link to a cancel button)

Red boxes highlight specific elements: #card div.labelLogo, #card div.label, #card input[type=text], #card div.content, and #card div.content a.

CSS example of the payment web pages

```
/** Cancel button (eg "Back") ***/
#PaylineForm #cancelButton { }

/** Entry form: "Card Type" header cells ***
#card div.labelLogo { }

/** Entry Form: Form Field Labels (eg "Card Number") ***
#card div.label { }

/** Entry Form: Form Field Cells ***
#card div.content { }

/** input form: form fields (eg card number) ***
#card input [type = text] { }

/** input form : link (eg "More information") ***
#card div.content a { }
```

Personalization of the TPEV CSS

This section aims to show the main styles to customize the pages of the TPEV.

The CSS supplements web payment pages is available at: <https://homologation-tpv.payline.com/tpev/themes/basic/all.css>

Home page

CSS sample of the TPEV

```
div#remoteuser {
float: right;
text-align: right;
}

div#top h1 {
color: #AAAAAA;
font-size: 1.2em;
font-weight: bold;
margin-top: 0;
width: 60%;
}

h1 {
color: black;
font-size: 1.6em;
line-height: 1em !important;
margin: 0;
padding: 0;
}

h2 {
font-size: 1.1em;
margin: 1.1em 0;
}

ul.linkList {
background: #EFEFEF none repeat scroll 0 0;
border: 1px solid #CCCCCC;
margin: 0;
padding: 1em 1em 0;
}

ul.linkList li {
margin: 0;
padding-bottom: 1em;
}

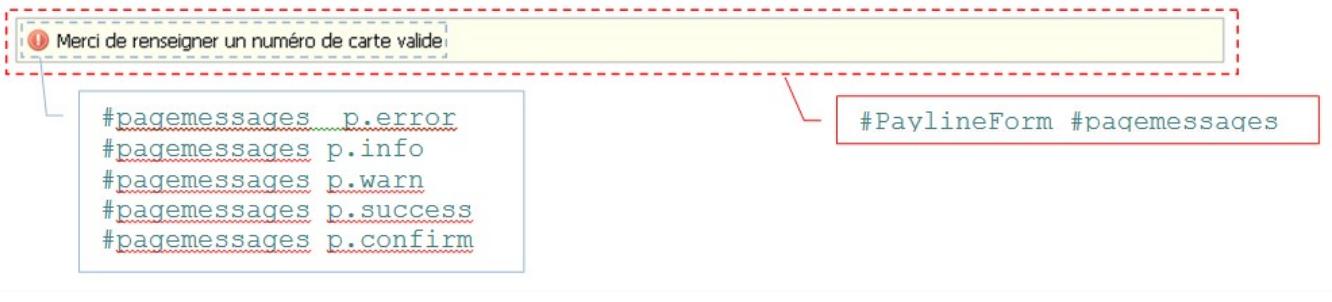

a:visited {
}

a:hover {
text-decoration: none;
}

a, a:link {
color: blue;
text-decoration: underline;
}

/** reglages generaux (police, couleur...) ***/
body {
background: white none repeat scroll 0 0;
color: black;
font-family: Tahoma, sans-serif !important;
font-size: 76%;
margin-top: 0;
}
```

Error and confirmation messages

Domain Authorization Letter Template

Date _____

Dear VeriSign

I confirm and warrant that:

Certificate Applicant is _____ ("Certificate Applicant")
Domain to be included in the certificate is _____ ("Domain")
Registrant of the Domain is _____ ("Registrant")

I am the registrant (and/or employed by the Registrant) and am duly authorized to sign this Domain Release Letter and to deal with all matters related to the registration of the Domain.

VeriSign, Inc. ("VeriSign") recently received a request from Certificate Applicant to issue one or more Digital Certificate(s) under Certificate Applicant's name. Certificate Applicant desires to install the Digital Certificate on its web server(s) for the domain and ultimately to enable secure communications with its users.

Registrant acknowledges that it has granted Certificate Applicant the right to use the Domain as a common name in the Digital Certificate request referenced above and to otherwise use the Domain in connection with its business.

Registrant agrees that VeriSign may continue to renew the Applicant's certificate on or before expiration without further confirmation from Registrant. Registrant further agrees to request VeriSign to revoke the Applicant's certificate(s) in the event the Applicant is no longer entitled to use the Domain or domain ownership is transferred to a third party who is not the Applicant.

Registrant agrees to indemnify VeriSign and its directors, officers, agents, employees, contractors, parents, affiliates, or subsidiaries (collectively, the "Indemnified Parties") and hold the Indemnified Parties harmless from and against any losses, costs, damages, and fees (including reasonable attorney's fees) incurred by the Indemnified Parties in connection with: (a) Any breach by Registrant of any representation or obligation under this letter or any domain name registration agreement between Registrant and the Registry governing the Domain name registration; or (b) Acts or omissions, the use of any product or service provided by Registrant, or any other item furnished by Registrant to the Applicant related to the use of the Digital Certificate (collectively, the "Indemnity Conditions"). Upon appropriate notice, Registrant shall defend, at its expense, any claim brought against one of more of the Indemnified Parties based on or arising out of one or more of the Indemnity Conditions.

Regards,

Full name:

Job Title:

Signature:

[To be signed by the Domain Registrant or an employee of the registrant]

How to customize application images

The images of each can be customized. New images must be provided by the distributor. They must scrupulously respect the following constraints:

- Same name (and identical case)
- Same extension
- Same size in pixel

Images that are not provided will be overwritten with the default images.

The sending procedure is as follows:

- Pack the images into an admin.zip file for admin center images
- Pack the images into a tpev.zip file for TPEV images
- Pack the images into a webp.zip file for the images of the payment web pages
- Send the files to the email address assistance@payline.com the email must include in subject "whitebrand picture" as well as the name of the disrimiter in the body of the email
- The images will be updated on the site at the next update of applications (1 update per month).
