| Request | Response |
|---------|----------|

## Response

The "getWebPaymentDetailsResponse" message is Payline's response to a request for the result of a web payment. It allows you to obtain, among other things, the unique transaction number on Payline and the debit authorization number issued by your bank.  
The answer has the following structure:

| Element                  | Description                                                                                                                                                                                                                                                  | Required | Format                                          | Condition                                                          |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------|-------------------------------------------------|--------------------------------------------------------------------|
