

Webservice - doCaptureRequest

Request	Response
---------	--------------------------

The doCaptureRequest function performs a request for validation of an accepted authorization. Once the validation is taken into account, a file containing all the validations is given to the merchant's bank ; Payline remits payment requests to your bank.

Request

The doCaptureRequest request must have the following structure :

Element	Description	Required	Format	Example
version	Payline web services version. To be valued with the latest version: see the table of versions.	Yes	N2	18
