# COOKIES

## Definition

Cookies are small "text" files issued by the sites you visit. They are saved on your terminal (smartphone, tablet, computer, etc.) and allow temporary or persistent data to be stored. In particular, they inform the site you are visiting of the date of your last visit, your display preferences (example: the number of articles to display per page, etc.).

## Use

In order to improve your experience, to improve its services or to facilitate navigation, Monext implements two types of cookies during your navigation:

- session cookies (also called comfort, temporary or functional) whose sole purpose is to maintain your "session context". So during your browsing, your browsing context is maintained. The data collected in this context is automatically destroyed after a period of about half an hour from the end of your navigation.

## Revision and evolutions

The rules for managing cookies and audience measurement set out above may change. Any processing changes or revisions will be logged on this page and flagged by updating the publication date.
