Introduction

The plugin downloadable on this page allows rapid implementation of the Payline solution in your **Prestashop 8** store.

Download the module

Payline plugin **version 2.3.1** for **Prestashop version 8.x** : download the [payline-prestashop-v2.3.1.zip](#) plugin

This version includes:

- PHP 8.x compatibility fix
- Downgrade composer to ensure php 7.3 compatibility
- Upgrade SDK from v4.73 to v4.75

Payline plugin **version 2.3** for **Prestashop version 8.x** : download the [payline-prestashop-v2.3.0.zip](#) plugin

Installing the plugin

Check the previous chapter for prerequisites.

In your Prestashop back office, go to the Modules category:

1. Click the *Add New Plugin icon*
2. Click the *Choose File* button . In the displayed explorer, select the downloaded plugin then validate
3. Click the *Load Plugin button*
4. **Payline** appears in the list of plugins. Finalize the installation by clicking on the *Install button*

 please consult the [Prestashop 1.6 and 1.7 Plugin](#) page for more details on the installation procedure
