Return codes - Payline Front (02)

Return codes linked to the return of Payline processing.

Miscellaneous codes are related to an operation other than payment. For example: you can always know what the consumer is doing on the Payline payment page by calling the getWebPaymentDetail function. In the case where the consumer has not yet made a transaction, a code 02XXX informs you of the status of the transaction.

Code	ShortMessage	LongMessage
02000	ONHOLD_PARTNER	Transaction in progress, please wait for payment status.
02001	ERROR	Duplicate transaction
02002	ERROR	Duplicate pending transaction
02003	REFUSED	Issuer communication error. Transaction must be cancelled.
02004	CANCELLED	Issuer communication error. Transaction cancelled.
02005	ONHOLD_PARTNER	Transaction in progress, please wait for payment status.
02006	ONHOLD_PARTNER	Retry in progress, please wait for payment status.
02008	CANCELLED	Transaction canceled by user
02009	CANCELLED	To be reversed, Payline fallback process
02010	ERROR	Requested function not available
02011	ERROR	To be reversed in fallback mode
02012	ERROR	Unmatched partner return code
02013	ERROR	Issuer communication error. Transaction cancelled.
02014	CANCELLED	Transaction handled by merchant
02015	REFUSED	Transaction in progress, please wait for payment status.
02016	ONHOLD_PARTNER	Transaction hold on partner, please wait for payment method return
02020	REFUSED	Transaction refused by partner
02101	ERROR	System internal error (frontend)
02102	ERROR	Acquirer server communication error
02103	ERROR	Connection timeout, please try later
02104	ERROR	Tokenizer internal error
02105	ERROR	Capture sent for settlement before cancellation process
02106	ERROR	Payment partner error
02110	ERROR	The amount is invalid
02201	ERROR	The seeked encryption key does not exist
02202	ERROR	The used encryption key is out of date
02203	ERROR	Too many active key pair
02204	ERROR	Invalid merchantKeyName
02301	ERROR	Transaction ID is invalid.
02302	ERROR	Transaction is invalid.
02303	ERROR	Invalid contract number.
02304	ERROR	No transaction found for this token
02305	ERROR	Invalid field format
02306	INPROGRESS	The consummer has to fill his payment card details
02307	ERROR	Invalid custom page code

ERROR	Invalid value for
ERROR	CustomPaymentPageCode is inactive
ERROR	No transaction matching with search criteria
ERROR	Too many transactions match with search criteria
ERROR	Search criteria are invalid
CANCELLED	Transaction flag capturable is disabled
ERROR	Transaction flag refundable is disabled
ERROR	A merchant is already logged on with this company name. If there is a problem, contact Support
ERROR	The commercial offer does not exist for this distributor. If there is a problem, contact Support
ERROR	This token does not exist
ERROR	This token does not exist
CANCELLED	Transaction cancelled by user
ERROR	The searched time interval is too long
ERROR	Invalid value for payment action
ERROR	Invalid cardholder name
REFUSED	Birthdate must not be provided using 3DS
CANCELLED	The session expired before the consumer has finished the transaction
ERROR	Transaction must be unblocked before capture
ACCEPTED	Mass Transaction Successfull
ERROR	Some transaction failed
ERROR	Waiting for treatment
ERROR	No mass treatment found
ACCEPTED	Operation Successfull
ACCEPTED	Operation Successfull but wallet will expire
ERROR	Wallet with the same identifier exist
ERROR	Wallet does not exist
REFUSED	Can not update Lastname and Firstname
ERROR	Wallet is disabled
REFUSED	Wallet can not operate on scheduled date
ERROR	Can not find payment record
REFUSED	Payment record is disabled
REFUSED	payment.amount must equals recurring.firstAmount + (recurring.billingLeft - 1) * recurring.amount
ERROR	Can not find payment record
REFUSED	Wallet is not supported for this card
REFUSED	Lastname and Firstname required for wallet
ERROR	Wallet Id required for wallet
ERROR	Private data number is limited to 99
REFUSED	Must choose the data to update
ERROR	Can not disable the wallet(s)
REFUSED	Can not disable some wallet(s)
